

5 Sandford report

Confirmation has been received from SLC that the local telephone box will be removed.

A perennial planting scheme in the Village Green has been completed by SLC .
Christmas Tree Lights – SLC had advised PM that extra lights would be provided but unfortunately they never arrived. (SUACC to follow up next winter with Roads Dept).
The Cinema Club restarts on 3rd February with Love and Friendship. A full programme of events will be available shortly. Chris advised that the Cinema Club have also applied for grant funding from the BFI for extra equipment to enhance the audio function for some patrons.

PTA are holding a Burns Supper on 27th January at the Village Hall

Michael Pink has advised PM that under SLC's Adopt a Path scheme he has volunteered to adopt the Spectlee Falls Route. Volunteers of this project completed recent repairs to the handrails.

7 Windfam Update

The next meeting of the Kype Muir Community Partnership is tomorrow evening at 7:30 PM

8 AOB

It was agreed that PM would make contact with CAVLP as Sandford is just on their current boundary line and many of their activities would benefit local children and residents.

Community Defibrillator – it was discussed and agreed that PM would check with the Hall Committee if they would support installing a Community Defibrillator at the Hall.

It was agreed to advise the EK news of our website address and update them when any special events are on.

PM advised that the septic waste holding tank for a large part of the Village has been in need of repair and has been overflowing on numerous occasions since last November, flooding the surrounding area. This had been repeatedly reported to Scottish Water who had assured residents that it was clean water and that they were attempting to correct the problem. It was agreed to check that repairs were completed timeously or to contact SEPA/SLC.
